THIN PEOPLE SHOULD TAKE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

And Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly bollows and angles by the soft curved lines of health and beauty, there are evidently thousands of meand women who keenly feel their excessive thinness.

Thinness and weakness are usually due to staired nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by Washburn-Lyle in Memphis and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon diagpear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health.

CAUTION:—Although bitro-phosphate is unsurpassed for refleving nervousness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

Now, after using only one week I am gaining strength, eating with a relish, and sleeping like a baby," etc. Any nervous, weak, impoverished man or woman can take Cadomene with certainty of helping them back to strength and vigor. Every purchase guaranteed satisfactory to the purchaser. Sold by druggists everywhere.
